

Topics	Name	Authors	INDEX
Big data in mass spectrometry	Integration of very narrow chromatographic peaks	Kalambet Y., Kozmin Y. , Samokhin A.	B-1
Environmental Mass Spectrometry	Application of LA-ICP-MS in PGE and Au analyses of sulfides	Abramova V.D.	E-1
Environmental Mass Spectrometry	Study of gaseous sample ionization by excited particles formed in glow discharge using high resolution orthogonal acceleration time of flight mass spectrometer	Sulimenkov I.V., Brusov V.S., Zelenov V.V., Skoblin M.G., Kozlovskii V.I.	E-2
Environmental Mass Spectrometry	Application of Graphene Oxide / Polyacrylonitrile film in Ambient Mass Spectrometry for the Sensitive Sample Analysis	Zhihao Wang, Xiaowei Fang, Rui Su, Konstantin Chingin, and Huanwen Chen	E-3
Environmental Mass Spectrometry	APCI MS instrument for atmospheric measurements of OH, RO2 and H2SO4	Kukui A., Chen H.	E-4
Environmental Mass Spectrometry	Efficiency of library search against EI mass spectral databases	Samokhin A.S., Sotnezova K.M., Revelsky I.A.	E-5
Environmental Mass Spectrometry	The role of spectral skewing in GC/MS analysis	Samokhin A.S. , Kalambet Y.A.	E-6
New instruments and methods of mass spectrometry for biomedical research	Rapid Analysis of Plasma of Ovarian Cancer Patients by Internal Extraction Electrospray Ionization Mass Spectrometry (iEESI-MS)	Wenjie Liu, Jing Han, Hua Zhang, Tengao Zhu, Huanwen Chen, Jiaquan Xu, Songling Zhang, Dapeng Liang	BM-1
New instruments and methods of mass spectrometry for biomedical research	Derivatization of primary amines with tris-(2,6-dimethoxyphenyl)-methyl cation for the analysis by MALDI mass spectrometry	Belyaeva M.A., Topolyan A.P., Slyundina M.S., Korshun V.A., Borisov R.S.	BM-2
New instruments and methods of mass spectrometry for biomedical research	Choosing the optimal alkylating agent for bottom-up proteomics applications	Solovyeva E.M., Kuznetsova K.G., Lobas A.A. , Zgoda V.G., Moshkovskii S.A., Gorshkov M.V.	BM-3
New instruments and methods of mass spectrometry for biomedical research	Amino acid distributions for quality control of peptide identification in bottom-up proteomics	Bubis J.A., Ivanov M.V., Levitsky L.I. , Gorshkov M.V.	BM-4
New instruments and methods of mass spectrometry for biomedical research	The fine-structure RF carpets for the transport of ions at atmospheric pressures	Poteshin S.S., Burykina A., Sysoev A.A.	BM-5
New instruments and methods of mass spectrometry for biomedical research	Static Harmonization Of Dynamically Harmonized FT ICR Cell	Zhdanova E., Kostyukevich Yu., Nikolaev E.	BM-6
New instruments and methods of mass spectrometry for biomedical research	Analysis of supermetallized complexes of biomolecules with H/D exchange in ESI source and high-resolution mass spectrometry.	Yakovlev P., Kostyukevich Yu., Kononikhin A., Popov I., Nikolaev E.	BM-7
New instruments and methods of mass spectrometry for biomedical research	Analysis of phosphorylated proteins in tissues and biological fluids using MRM	Zavialova M.G., Kharybin O.N., Zgoda V.G., Nikolaev E.N.	BM-8
New instruments and methods of mass spectrometry for biomedical research	Using the standard addition method to measure the absolute concentrations of the peptides in biological samples	Kharybin O.N., Zavialova M.G., Zgoda V.G., Nikolaev E.N.	BM-9

New instruments and methods of mass spectrometry for biomedical research	Comparison of Solid-Phase Extraction and Size Exclusion Chromatography applied for preparation of urine samples from pregnant women for LC-MSMS	Sergeeva V.A., Baibakova V.V., Bugrova A.E., Starodubtseva N.L., Kononikhin A.S., Indeykina M.I., Popov I.A., Frankevich V.E., Nikolaev E.N., Sukhikh G.T.	BM-10
New instruments and methods of mass spectrometry for biomedical research	The optimization of fatty acid hexane extraction for HPLC-MS	Tokareva A.O., Chagovets V., Starodubtseva N., Kononikhin A., Frankevich V., Nikolaev E.	BM-11
New instruments and methods of mass spectrometry for biomedical research	Ultrahigh-resolution mass-spectrometry improves the determination of elemental composition of investigated compounds	Levin N.G., Zhvansky E., Popov I.A., Shurkhai V.A., Potapov A.A., Nikolaev E.N.	BM-12
New instruments and methods of mass spectrometry for biomedical research	Developing a method to detect isomeric forms of beta-amyloid using MALDI-TOF/TOF	Sobolev P.D., Indeykina M.I., Bugrova A.E., Pekov S.I., Kononikhin A.S., Popov I.A., Nikolaev E.N.	BM-13
New instruments and methods of mass spectrometry for biomedical research	Development of a high-yield peptide-extraction method for blood plasma peptidome analysis	Shornikova A.Y., Zakharova N.V., Bugrova A.E., Baybakova V.V., Indeykina M.I., Kononikhin A.S., Popov I.A., Nikolaev E.N.	BM-14
New instruments and methods of mass spectrometry for biomedical research	The resonant electron capture by the molecules of keto-enol diterpene alkaloids tautomers	Abdullin M.F., Sainiev D.A., Tsyrlina E.M., Nafikova E.P., Pshenichnyuk S.A., Mavrodiev V.K., Furlei I.I., Yunusov M.S.	BM-15
New instruments and methods of mass spectrometry for biomedical research	Development of focusing system for charged aerosol droplets in mass-spectrometric ion sources at atmospheric pressure	Mikhailov A.D., Levin R.E., Kostyukevich Yu.I., Popov I.A., Nikolaev E.N.	BM-16
New instruments and methods of mass spectrometry for biomedical research	Cytotoxicity of benchmark chemicals by proteomic profiling of the HaCaT keratinocytes	Nakhod K.V., Rusanov A.L., Petushkova N.A., Poverennaya E.V., Luzgina N.G.	BM-17
New methods of mass spectrometry for petroleomics (analysis of oil, gas and petroleum products)	A new conversion solid electrolyte reactor for isotope ratio mass spectrometry (IRMS)	Sevastianov V., Babulevich N., Galimov E.	P-1
New methods of mass spectrometry for petroleomics (analysis of oil, gas and petroleum products)	Advanced mass-spectrometric and pyrolytic study of reservoir fluid and rock samples of the Bazhen Formation	Mitiurev N.A., Kozlova E.V., Spasennykh M.Y., Nikolaev E.N., Kosyukevich Y.I., Shaidullina G.M., Tomas Kovalczuk, Voropaev A.V., Kalmykov A.G.	P-2
New methods of mass spectrometry for petroleomics (analysis of oil, gas and petroleum products)	Chromatogram-spectrometric analysis of gas oil cracking products	Abdullin M.F., Mustafin A.G., Galiakhmetov R.N., Mustafin I.A.	P-3
New methods of mass spectrometry for petroleomics (analysis of oil, gas and petroleum products)	Application of selective H/D exchange coupled to Fourier Transform Ion Cyclotron Resonance mass-spectrometry to investigation individual compartments of Humic Substances	Zherebker A.I., Kostyukevich Yu., Kononikhin A.I., Kharybin O., Nikolaev E., Perminova I.V.	P-4
New methods of mass spectrometry for petroleomics (analysis of oil, gas and petroleum products)	Advanced mass-spectrometric and pyrolytic study of reservoir fluid and rock samples of the Bazhen Formation.	Mitiurev N.A., Kozlova E.V., Iakovlev P.V., Kalmykov A.G., Shaidullina G.M., Tomas Kovalczuk, Voropaev A.V., Nikolaev E.N., Spasennykh M.Y.	P-5

Spectrometry of ion mobility and mass spectrometry	Features Of TOF Mass-Analyzer With Mirror Location Wedge-Shaped Analyzers	Milyaeva V.V., Sysoev A.A.	IM-1
Spectrometry of ion mobility and mass spectrometry	Active sampling system for gas phase analyzers	Akmalov A.E., Chistyakov A.A. , Kotkovskii G.E., Sychev A.V.	IM-2
Spectrometry of ion mobility and mass spectrometry	Prospects Of Creating A New Type Gas Chromatography-Mass Spectrometer With Corona Discharge	Lebetskaya A.V. , Sysoyeva E.A., Sysoyev A.A.	IM-3
Spectrometry of ion mobility and mass spectrometry	The trajectory of ions in the TOF wedge-shaped analyzer	Spakhov A.V.	IM-4
Spectrometry of ion mobility and mass spectrometry	The Ion-Optical Characteristics of ToF Mass Analyzer for the Tandem Composition of the Reflectors	Sysoeva E.A., Sysoev A.A.	IM-5
Spectrometry of ion mobility and mass spectrometry	Mass spectrometry and Ion Mobility Spectrometry analysis of solid precipitate which prevents etching of silicon in solution of ethylenediamine and pyrocatechol	Veselov D.S., Belyakov V.V., Voronov Y.A.	IM-6
Spectrometry of ion mobility and mass spectrometry	Hyphenated techniques based on ion mobility spectrometry-mass spectrometry (IMS-MS)	Shaltaeva Y.R., Belyakov V.V., Pershenkov V.V.	IM-7
Spectrometry of ion mobility and mass spectrometry	Influence of anisotropy of the ion energy distribution of laser plasma to elemental analysis	Silnikov E.E., Mihailov A.M., Sysoev Aleksi A., Sysoev Alexander A.	IM-8
Spectrometry of ion mobility and mass spectrometry	Automatic correction of aberrations in the TOF analyzer with two wedge-shaped mirrors	Karpov A.V. , Sysoeva E.A. , Sysoev Alexander A.	IM-9
